| <b>FTEE Exam Logbook Case Distribution</b>          |

| Logbook reported cases |                     |                                |            |          |
|------------------------|---------------------|--------------------------------|------------|----------|
| Sr.                    | Type                | Subtype                        | Number     | Range    |
| 1                      | Normal study        | As basic standard              | 3          | 1 to 5   |
| 2                      | LV /RV assessment   | RWMA , ventricular function    | 20         | 16 to 24 |
| 3                      | Mitral valve        | MS/MR (including redo), TV, IE | 24         | 20 to 28 |
| 4                      | Aortic valve        | AS/AR (including redo), IE     | 24         | 20 to 28 |
| 5                      | ASD                 | All types of ASD               | 8          | 05 to 10 |
| 6                      | Cardiac tumor       | Myxoma                         | 3          | 02 to 04 |
| 7                      | Aorta               | Diss/Aneurysm                  | 5          | 02 to 08 |
| 8                      | ToF                 | Total/palliative correction    | 4          | 02 to 06 |
| 9                      | Cath lab procedure  | Device closure/TAVI/BMV        | 2          | 0 to 4   |
| 10                     | Pericardiac disease | Temponade                      | 4          | 02 to 06 |
| 11                     | Cardiomyopathy      | HOCM                           | 1          | 0 to 3   |
| 12                     | Misc.               | VSR, Pacemaker, BMV, ICU       | 2          | 0 to 5   |
| <b>Total</b>           |                     |                                | <b>100</b> |          |

| Video cases  |                     |                                |           |          |
|--------------|---------------------|--------------------------------|-----------|----------|
| Sr.          | Category            | Subtype                        | Number    | Range    |
| 1            | LV RV assessment    | RWMA ,Ventricular function     | 4         | 03 to 06 |
| 2            | Mitral valve        | MS/MR (including redo), TV, IE | 6         | 04 to 08 |
| 3            | Aortic valve        | AS/AR (including redo), IE     | 6         | 04 to 08 |
| 4            | ASD                 | All types of ASD               | 2         | 01 to 04 |
| 5            | Cardiac tumor       | Myxoma                         | 1         | 01 to 03 |
| 6            | Aorta               | Diss/Aneurysm                  | 2         | 01 to 04 |
| 7            | ToF                 | Total/palliative correction    | 1         | 01 to 04 |
| 8            | Cath lab procedure  | Device closure/TAVI/BMV        | 1         | 00 to 03 |
| 9            | Pericardiac disease | Temponade                      | 1         | 01 to 03 |
| 10           | Misc.               | HOCM, cath lab, ICU cases      | 1         | 00 to 03 |
| <b>Total</b> |                     |                                | <b>25</b> |          |
